

ANGORA BLIZZARD YARN - ONE SKEIN CONTEST

We have a fun challenge for you. What can you knit with one skein (approximately 2 oz or 60 grams) of Angora Yarn?

The International Association of Germany Angora Rabbit Breeders (**IAGARB**) is holding a contest to promote luscious, humanely harvested German Angora Rabbit Wool. We want to spread the word of the pleasure of knitting with our yarns and the beauty of the finished items.

Angora Blizzard and Angora Ice Yarns are a blend of 85% Prime Angora and 15% domestic Cormo sheep wool.

Angora Blizzard is a 2-ply (approximately 240 yards)

Angora Ice is a 1-ply. (approximately 480 yards)

They are available in either white or natural grey or dyed colors.

Our yarn is 100% grown and spun in North America.
